

## Man on the Moon!

Our new theme this half term is '**Man on the Moon**'. During this theme we will be learning about Neil Armstrong and the famous moon landing.

To support your child's learning, you could try completing a few of the following activities:

- Research your favourite planet online or using a non-fiction book. Find out some amazing facts and write them.
- Draw or paint a picture of your favourite planet.
- Visit the local library and look at some books about space.
- Create your own rocket using junk modelling.
- Create your own alien. What would it look like? What would you call it? Draw a picture and describe it.
- Investigate the different sizes of the planets, put them in size order.

**Please bring your work into the classroom or share it on the Classdojo Platform. We cannot wait to see what you have achieved!**
