

School attendance is still currently not compulsory, whether you send your child back to school is the decision of the parent/carer. However, we would encourage all those that can safely return to their class on their allocated Amber Group or Blue Group days to try it, those that have returned are now working well within the smaller class groups and enjoying being with classmates and seeing the teaching staff, midday assistants etc who are all familiar to them. Your child's Group, class information, start/finish time and PE days are all available in your ParentMail emails. If your child has already returned to school please remember that we expect them to attend on their allocated days, if your child cannot attend on their days due to illness or any other reason please let school know as early as possible on the day in the normal ways: answerphone message; ParentMail or email. Thank you.

Please remember to send your child into school with a sun hat and apply sun cream before attending, thank you.

Book Bags/PE Bags

When children return to school in September they will not need a book bag or PE bag.

All books/stationery will be kept in a wallet supplied by school, which is easily kept clean.

All children will be asked to come to school in PE kit on their allocated PE days, avoiding the need for a change of clothes.

Medication

Please ensure that any medication that your child requires to be administered at school, for example an asthma pump, is returned to the office when your child attends school. **Reminder:** if we have contacted you regarding medication that is reaching its expiry date, please arrange for a replacement to be made available to school as soon as possible.

Coolmilk

Just a reminder to all parents, If your child **is over 5** and you pay for your child to receive milk in school, please contact **Coolmilk** to confirm your child's date of return. They will then restart the delivery. Their contact number is 0800 321 3248. Further information can be found on their website www.Coolmilk.co.uk

Sneak peek at our week

Year N - Nursery

This week we have been focusing on a few stories from the Funny Bones collection. We have learnt about things that are inside our bodies. The children have enjoyed a variety of activities, such as building their own skeleton and sticking different parts of the body in the correct places. In Maths we have been looking at finding the missing number, estimating the amount and then counting to check. **Nursery drop-off is between 8.45-9.00am**

. **REMINDER:** Please remember to bring your child's sun hats and sun cream in.

Year R - Reception

This week Reception have enjoyed PE lessons outside in the sunshine, we have practiced different sports day games, for example hurdle races and the egg and spoon race. We have talked about how to keep well on a hot day and making sure we drink plenty of water.

We have continued learning about The Naughty Bus and wrote our own Naughty Bus story, it was a lot of fun sharing the different naughty things our buses had got up to.

In Maths this week we have learnt about place value, we have used Numicon and Diennes to make different numbers. We loved using the iPads to play different place value games on the Topmarks website.

We have been practicing the letters u, j and y in handwriting.

Year 1

This week the children have enjoyed finding out more about the seasons. We looked at how the weather and daylight changes in each season and how this affects plants, trees and animals. In Maths we have looked at money. The children have been adding the total of coins and finding ways to make different amounts. We have had a lot of fun designing our own puppets. The children have come up with some fantastic ideas and have started to make them.

Year 1 - PE Days

	Amber Groups	Blue Groups
Dragonfly	Tuesday	Tuesday
Newt	Wednesday	Friday
Heron	Tuesday	Thursday
Duck	Wednesday	Friday
Frog	Tuesday	Thursday

Year 2

In Year 2 we have enjoyed finding out about different pets and how to care for them. We used the I-Pads to research what they like to eat, how to care for them and the type of home they might need. We used our information and wrote informative leaflets. In Maths we have been revisiting the skills needed to solve multiplication and division equations and then thinking about the relationship between the calculations as well as some problem solving. We have enjoyed PE this week and have completed different circuits that included obstacle courses, running, and ball skills. We have also enjoyed making puppets in class and drawing shadows of animals outside.

REMINDER: Don't forget to come into school in your PE kit on your PE days. Please make sure children have sun cream on and bring a hat to school for this warmer weather.
