

## **All Creatures Great and Small Theme!**

**Our new theme this half term is 'All Creatures Great and Small'. During this theme we will be learning about animals. We will be learning about the different animal groups and different animal diets. We will also be recognising and identifying common plants.**

**To support your child's learning, you could try completing a few of the following activities:**

- Research your favourite animal online or using a non-fiction book. Find out some amazing facts and write them down.
- Draw or paint a picture of your favourite animal and label their different parts.
- Visit the local library and look at some books about animals.
- Create your own animal out of junk modelling.
- Investigate your garden or the park and make a list of the animals that live there.
- Make your own picture of the plants and trees you can see around the local area – you could use different materials.

Bring any homework into class to share with your teacher!
